Final Year Project (FYP-2)

FYP-2 (Week 1 - 14)

- Students are enrolled in Final Year Project **(CST404/DMT402/SWE407/CYS401/DSC401)**
  - **6 credit hours**

- The SCDS Final Year Project (CST404/DMT402/SWE407/CYS401/DSC401) evaluation consists of two major components:

FYP Report	Presentation
60	40

Overview of FYP-2 Assessment

- An examination panel (the student's supervisor and a moderator assigned by the school) will be formed to evaluate the **report and oral presentation**.

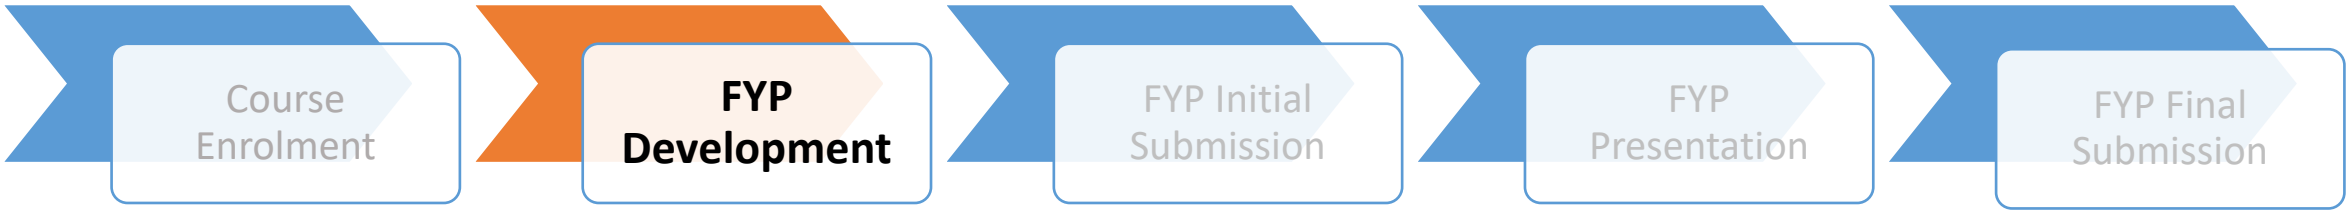

- Marking will be based on standard marking rubric.
  - **Supervisor – 60%**
    - supervisor will mark out of 100 and the mark is converted to 60%
  - **Moderator – 40%**
    - moderator will mark out of 100 and the mark is converted to 40%

Overview of FYP-2 Assessment

Report	Marks
Abstract	5%
Introduction	5%
Literature Review	10%
Design or Approach	15%
Experiment or Implementation	25%
Results and Discussion	15%
Conclusions and Recommendations	5%
References	5%
Quality of the Report	15%
TOTAL	**100% → 60%**

Presentation	Marks
Content and Clarity of Explanation	5%
Delivery Skills	10%
Demonstration of Experiment/System/ Prototype/ Source Code	10%
Response to the Questions	15%
TOTAL	**40%**

FYP-2 (Week 1 - 14)

1. **Regular Meetings**
   - **Weekly meetings** between student and supervisor
   - **Online or Physical meetings**
   - **Supervisor will respond during working days**

2. **Log Book Record**
   - Student must use the log book to write all related activities and findings throughout the duration of the project.
     - **Activity Report (Weekly)**
     - **Supervisory Meeting Record**

Academic Project Log

Week : 1 Start Date : _____ End Date : _____

Date	Activity Report
	- *Research activities* - *Items for discussion (before supervisory meeting))*
	Supervisory Meeting Record
	- *Meeting summary* - *Action list (to be attempted/completed by student by the next supervisory meeting)*

(Attachment can be attached whenever necessary)

Activity Report

- At least **THREE(3)** research activities
- Items for discussion (before supervisory meeting)

Supervisory Meeting Record

- Meeting summary
- Action list (to be attempted/completed by student before the next supervisory meeting)

FYP-2 (Week 1 - 14)

- Names of students who **fail** to meet their supervisors for **2 (TWO) consecutive meetings** will be sent to the **Office of Academic Affairs (OAA)** for further action.

- Students are **strongly advised to check their final year project report (before week 14) with their supervisors** before submitting it for evaluation.

Writing Guidelines

- Refer to the **"Guidelines for Final Year Project Report Writing"** provided by the office of academic affairs (OAA) to prepare the FYP report.

- The report should be **formatted** according to the instructions provided in this guideline. Some of the criteria specified in this guideline are generic and may vary depending on the school.
  - For such criteria, e.g., similarity index, students adhere to **SCDS guidelines**.

- Please **check the criteria in the marking rubric** of the FYP report to ensure all the necessary items are included before submitting your FYP report.

SECTION A : REPORT

1. ABSTRACT

Score and Descriptors

Excellent (5)	Good (4)	Average (3)	Need Improvement (2)	Poor (0 - 1)	Select Score
Comprehensive summary which indicates a clear and concise description of all of the followings in a coherent manner: □ problem statement, □ the significance, □ methodology, □ findings and conclusion of the project.	Good summary which indicates a concise description of all of the followings in a generally coherent manner: □ problem statement, □ the significance, □ methodology, □ findings and conclusion of the project.	Satisfactory/ adequate summary which indicates some description of the followings, but in an incoherent manner: □ problem statement, □ the significance, □ methodology, □ findings and conclusion of the project.	A summary is provided, but missing many details of the following: □ problem statement, □ significance, □ research methodology, □ findings and conclusion of the project.	□ Does not include an abstract, or □ Fails to achieve a minimum standard outlined in the descriptors.	

2. INTRODUCTION

Score and Descriptors

Excellent (5)	Good (4)	Average (3)	Need Improvement (2)	Poor (0 - 1)	Select Score
The topic is introduced accurately with well-structured and clear specifications of the project that cover all of the followings with supporting details: □ clearly introduces the context □ clearly identifies the problem statement and justification □ clearly identifies the aims and objectives □ clearly identifies the scopes □ clearly indicate the contributions and the structure of the report	The topic is introduced with well-structured specifications of the underlying project that cover most of the followings with supporting details: □ introduces the context □ identifies the problem statement and justification □ identifies the aims and objectives □ identifies the scopes □ indicate the contributions and the structure of the report	The topic is introduced vaguely with an adequate statement of context supporting rationale for the underlying project. Some supporting details of the following are missing/ambiguous: □ attempts to introduce the context □ indicates the problem statement and justification, but lacks supporting details □ identifies the aims and objectives □ attempts to identify the scopes □ indicate the contributions and the structure of the report	The topic is introduced incoherently. Many supporting details of the following are missing/ ambiguous: □ no context included/ context not appropriate □ problem statement and justification of the study are barely mentioned □ the aims and objectives are not clear/ not feasible □ scope is not identified/ too broad □ Structure of the report is included	□ Fails to achieve a minimum standard outlined in the descriptors.	

SECTION A : REPORT

1. ABSTRACT

Score and Descriptors

Excellent (5)	Good (4)	Average (3)	
Comprehensive summary which indicates a clear and concise description of all of the followings in a coherent manner: ☐ problem statement, ☐ the significance, ☐ methodology, ☐ findings and conclusion of the project.	Good summary which indicates a concise description of all of the followings in a generally coherent manner: ☐ problem statement, ☐ the significance, ☐ methodology, ☐ findings and conclusion of the project.	Satisfactory/ adequate summary which indicates some description of the followings, but in an incoherent manner: ☐ problem statement, ☐ the significance, ☐ methodology, ☐ findings and conclusion of the project.	A sum many ☐ pro ☐ sig ☐ res ☐ find

Please **check the criteria in the marking rubric**

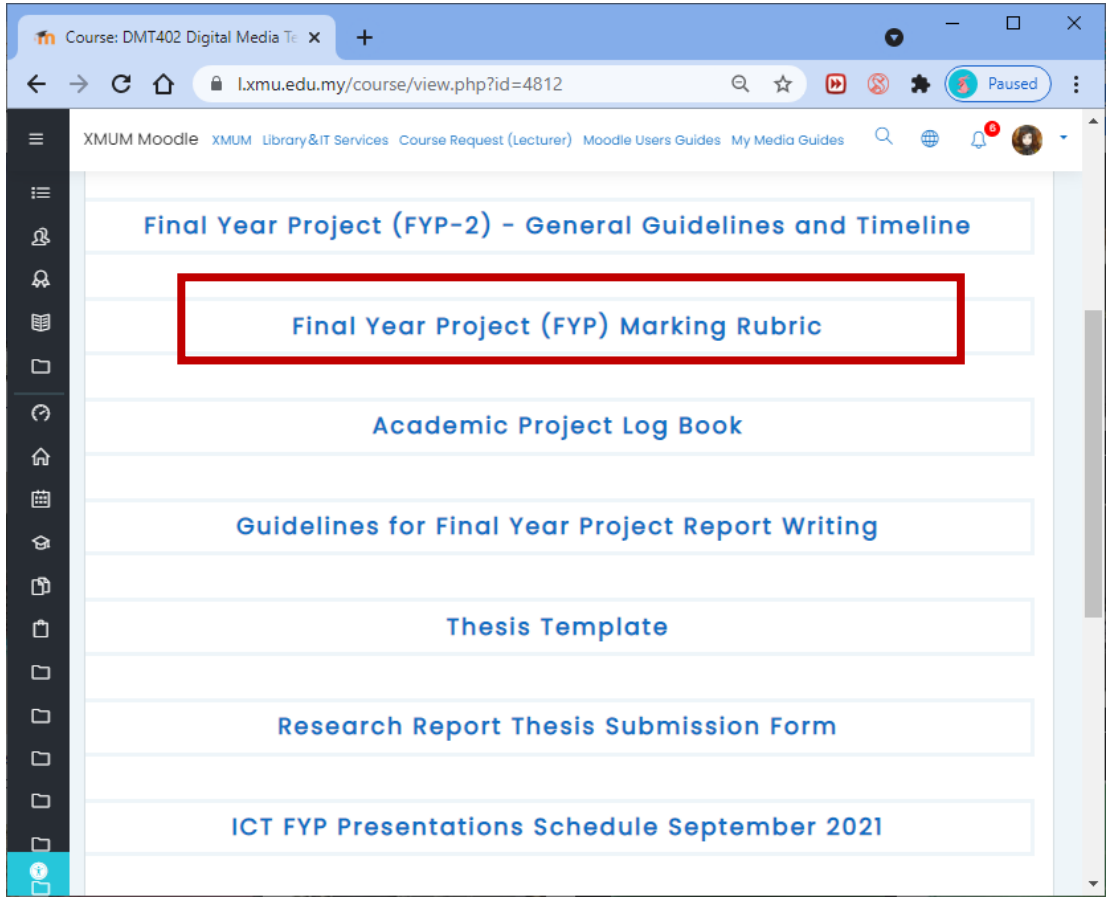

FYP Writing Guidelines

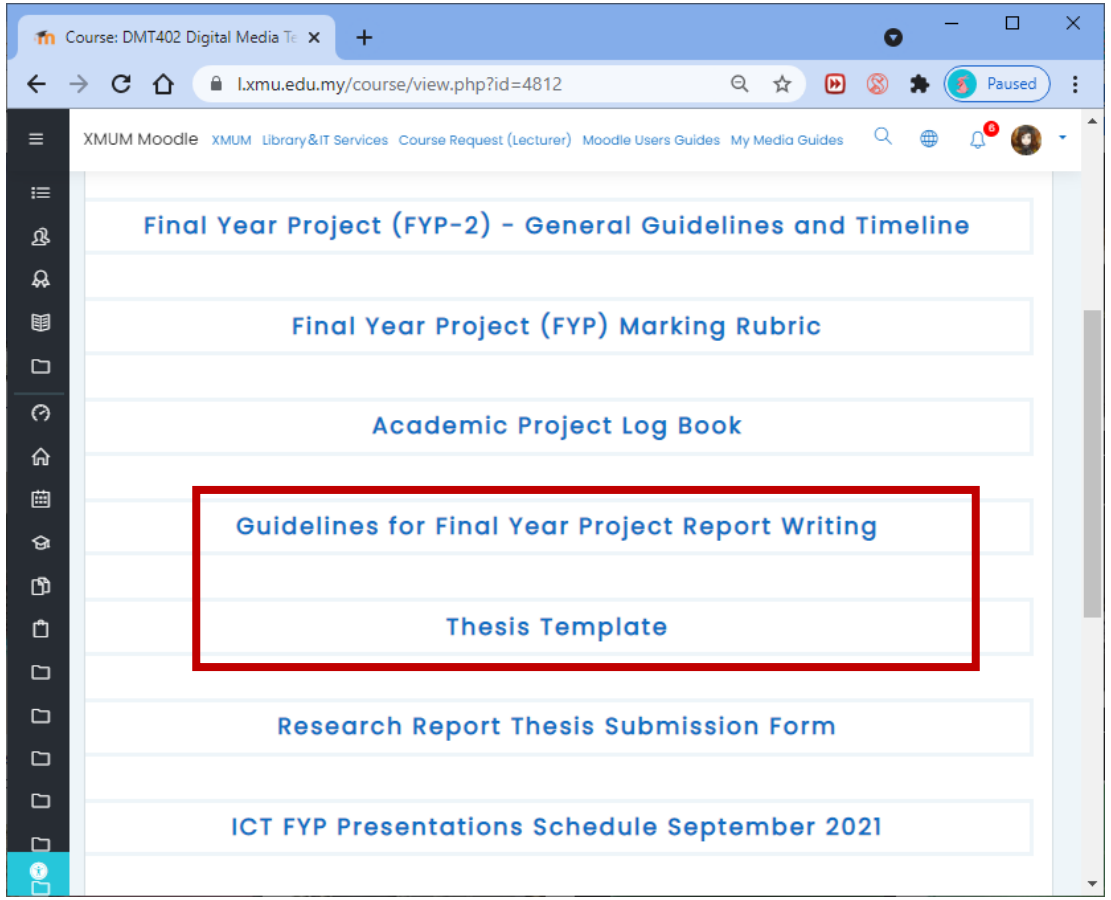

- The **word limit** for the Thesis Report, **excluding tables, figures, appendix, and references** is **10,000 words** and **must not exceed 30,000 words**.

- The **abstract** must be a **limited to 200 words** and include **five keywords separated by semicolon (;).**

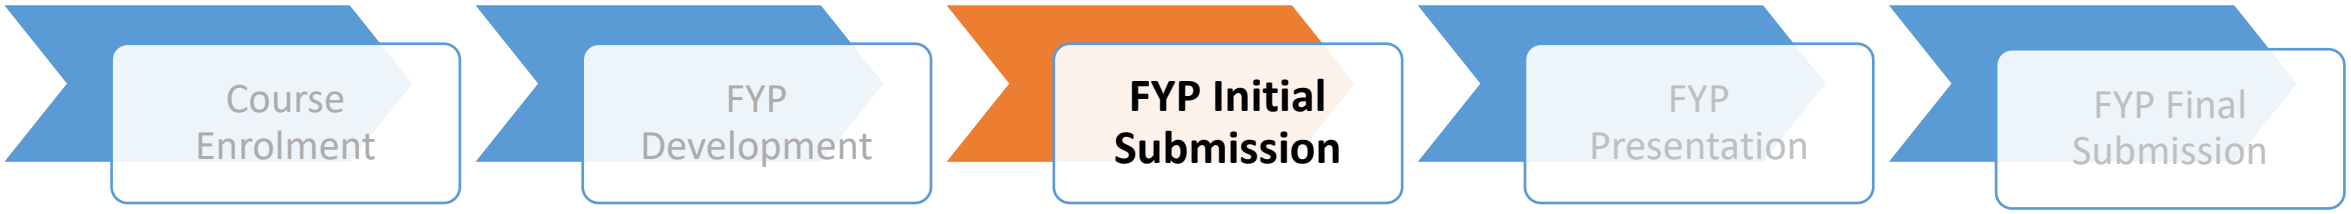

- **Plagiarism is forbidden.** The cut-off for the **Turnitin Similarity is 20%**.
  - The student who committed plagiarism shall be penalized according to the university guidelines for **academic misconduct.**
  - Cut-off for **AI Similarity is 20%**.
    Take note that student may not be able to graduate if this condition is violated (student can seek supervisor's help to check the AI Similarity)

FYP Writing Guidelines

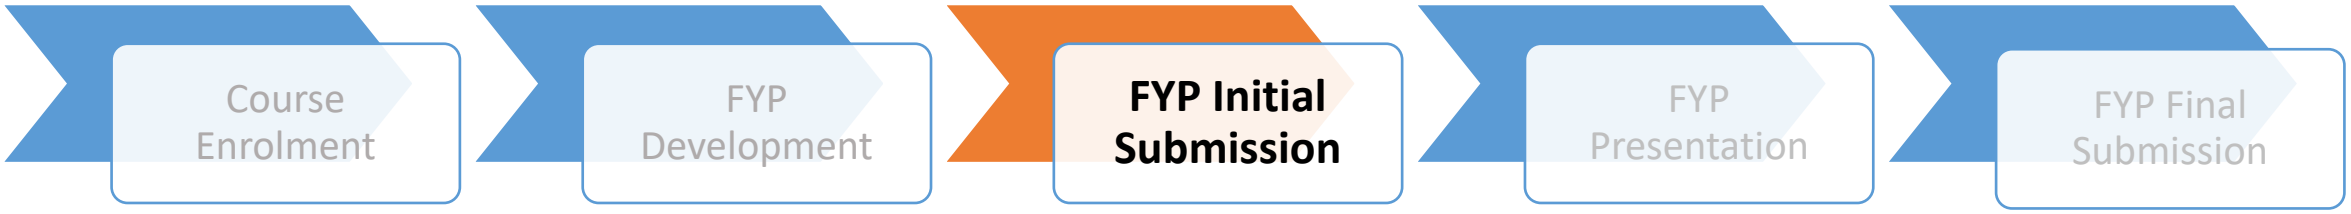

FYP-2 (Week 14)

- The deadline for Final Year Project (FYP) submission is expected to be on the **30 December 2026 (Wednesday, 2pm) of Week 14**.

- An examination panel (supervisor and moderator) will be formed to evaluate the report and presentation.

FYP-2 (Week 14)

- **Student Responsibilities:**
  1. Moodle Submission
  2. Email electronic copies of FYP Thesis, Turnitin Similarity Report, and Working Prototype/Demo Video to examiners (Supervisor and Moderator)

- **Examiners (Supervisor & Moderator):**
  - Examiners are to notify the FYP team if they have not received student submissions by **2 pm on 30 December 2026 (Wednesday) of Week 14 .**

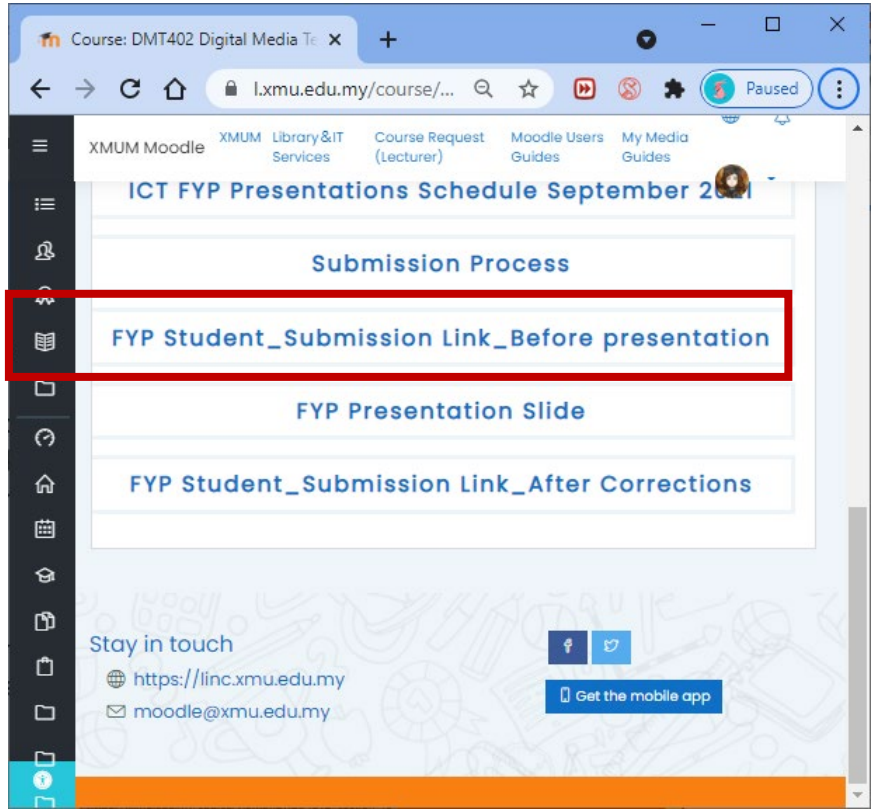

* Kindly note that *the List of Examiners and Presentation Schedule* will be released by ***Week 12.***

Submission Guidelines

- Student are required to submit the following documents (zipped folder) prior to the presentation.
  1. **FYP report (Word & PDF)**
  2. **Logbook (with supervisor's signature)**
  3. **Turnitin Similarity Report**
  4. **Turnitin Digital Receipt**
  5. **Working Prototype/Demo Video/Experimental Process**
  6. **AI Usage & Similarity Agreement Form**

  ***Notes: If file too big, can put in the ONE Drive/ XMUM Drive and share the link. The link can be included in the text file.**

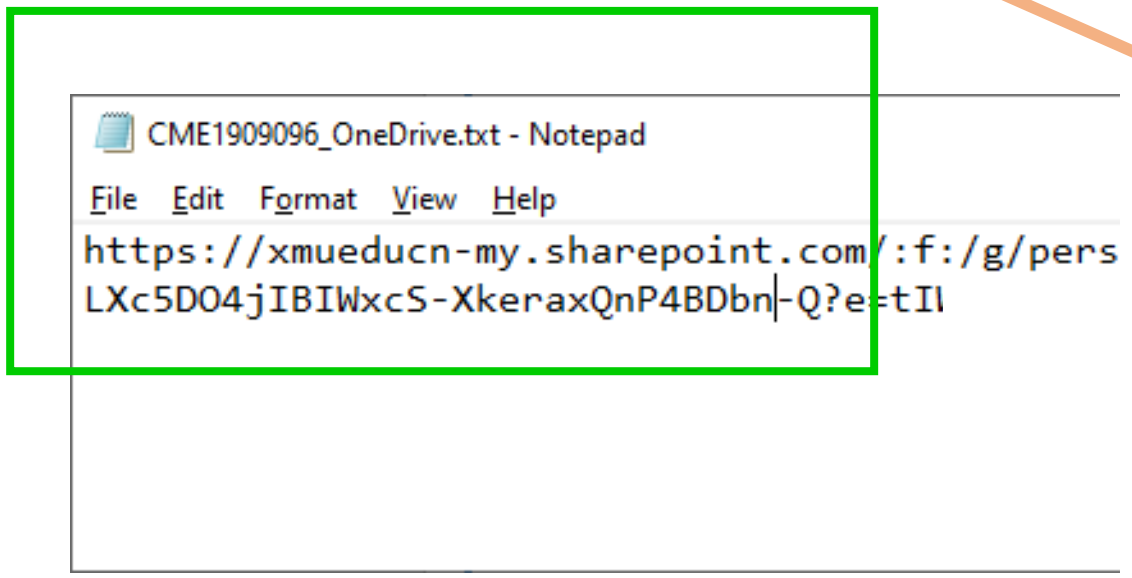

Failure to submit these documents on time without any valid reason **may result in a penalty**.

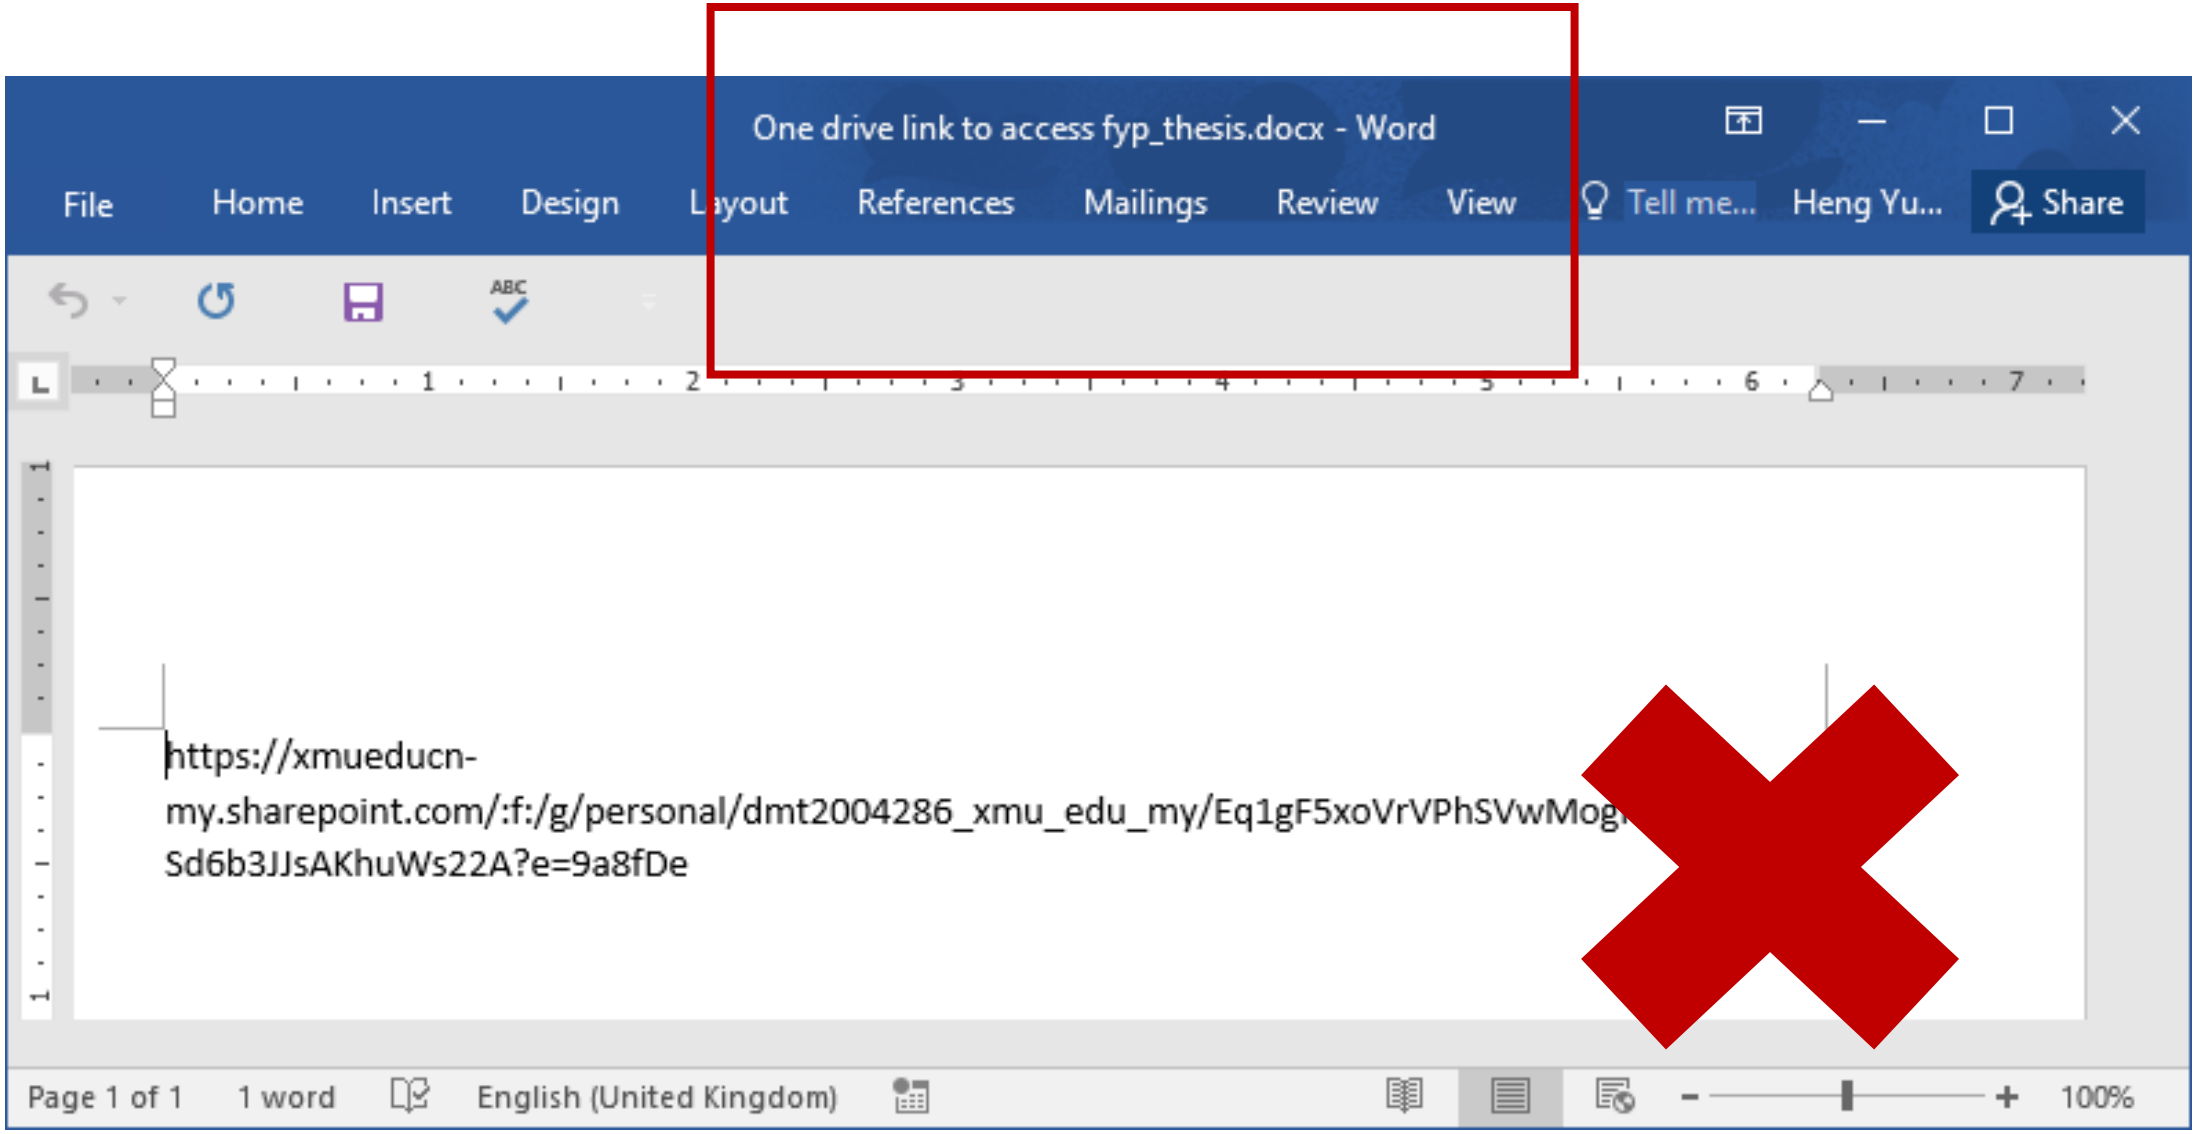

** Refer to "Submission Process"*

OneDrive/ XMUM DRIVE Submission Guidelines

- **OneDrive/ XMUM DRIVE Submission** : compress files if **larger than 20MB**
- Copy the OneDrive link in a **text file (.txt)**, name the text file as **StudentID_OneDrive/XMUMDrive**, and upload the text file in Moodle.
- Do not zip the **"item 1 – 4"** for submission via OneDrive/ XMUM DRIVE Submission, Except for the Working Prototype file

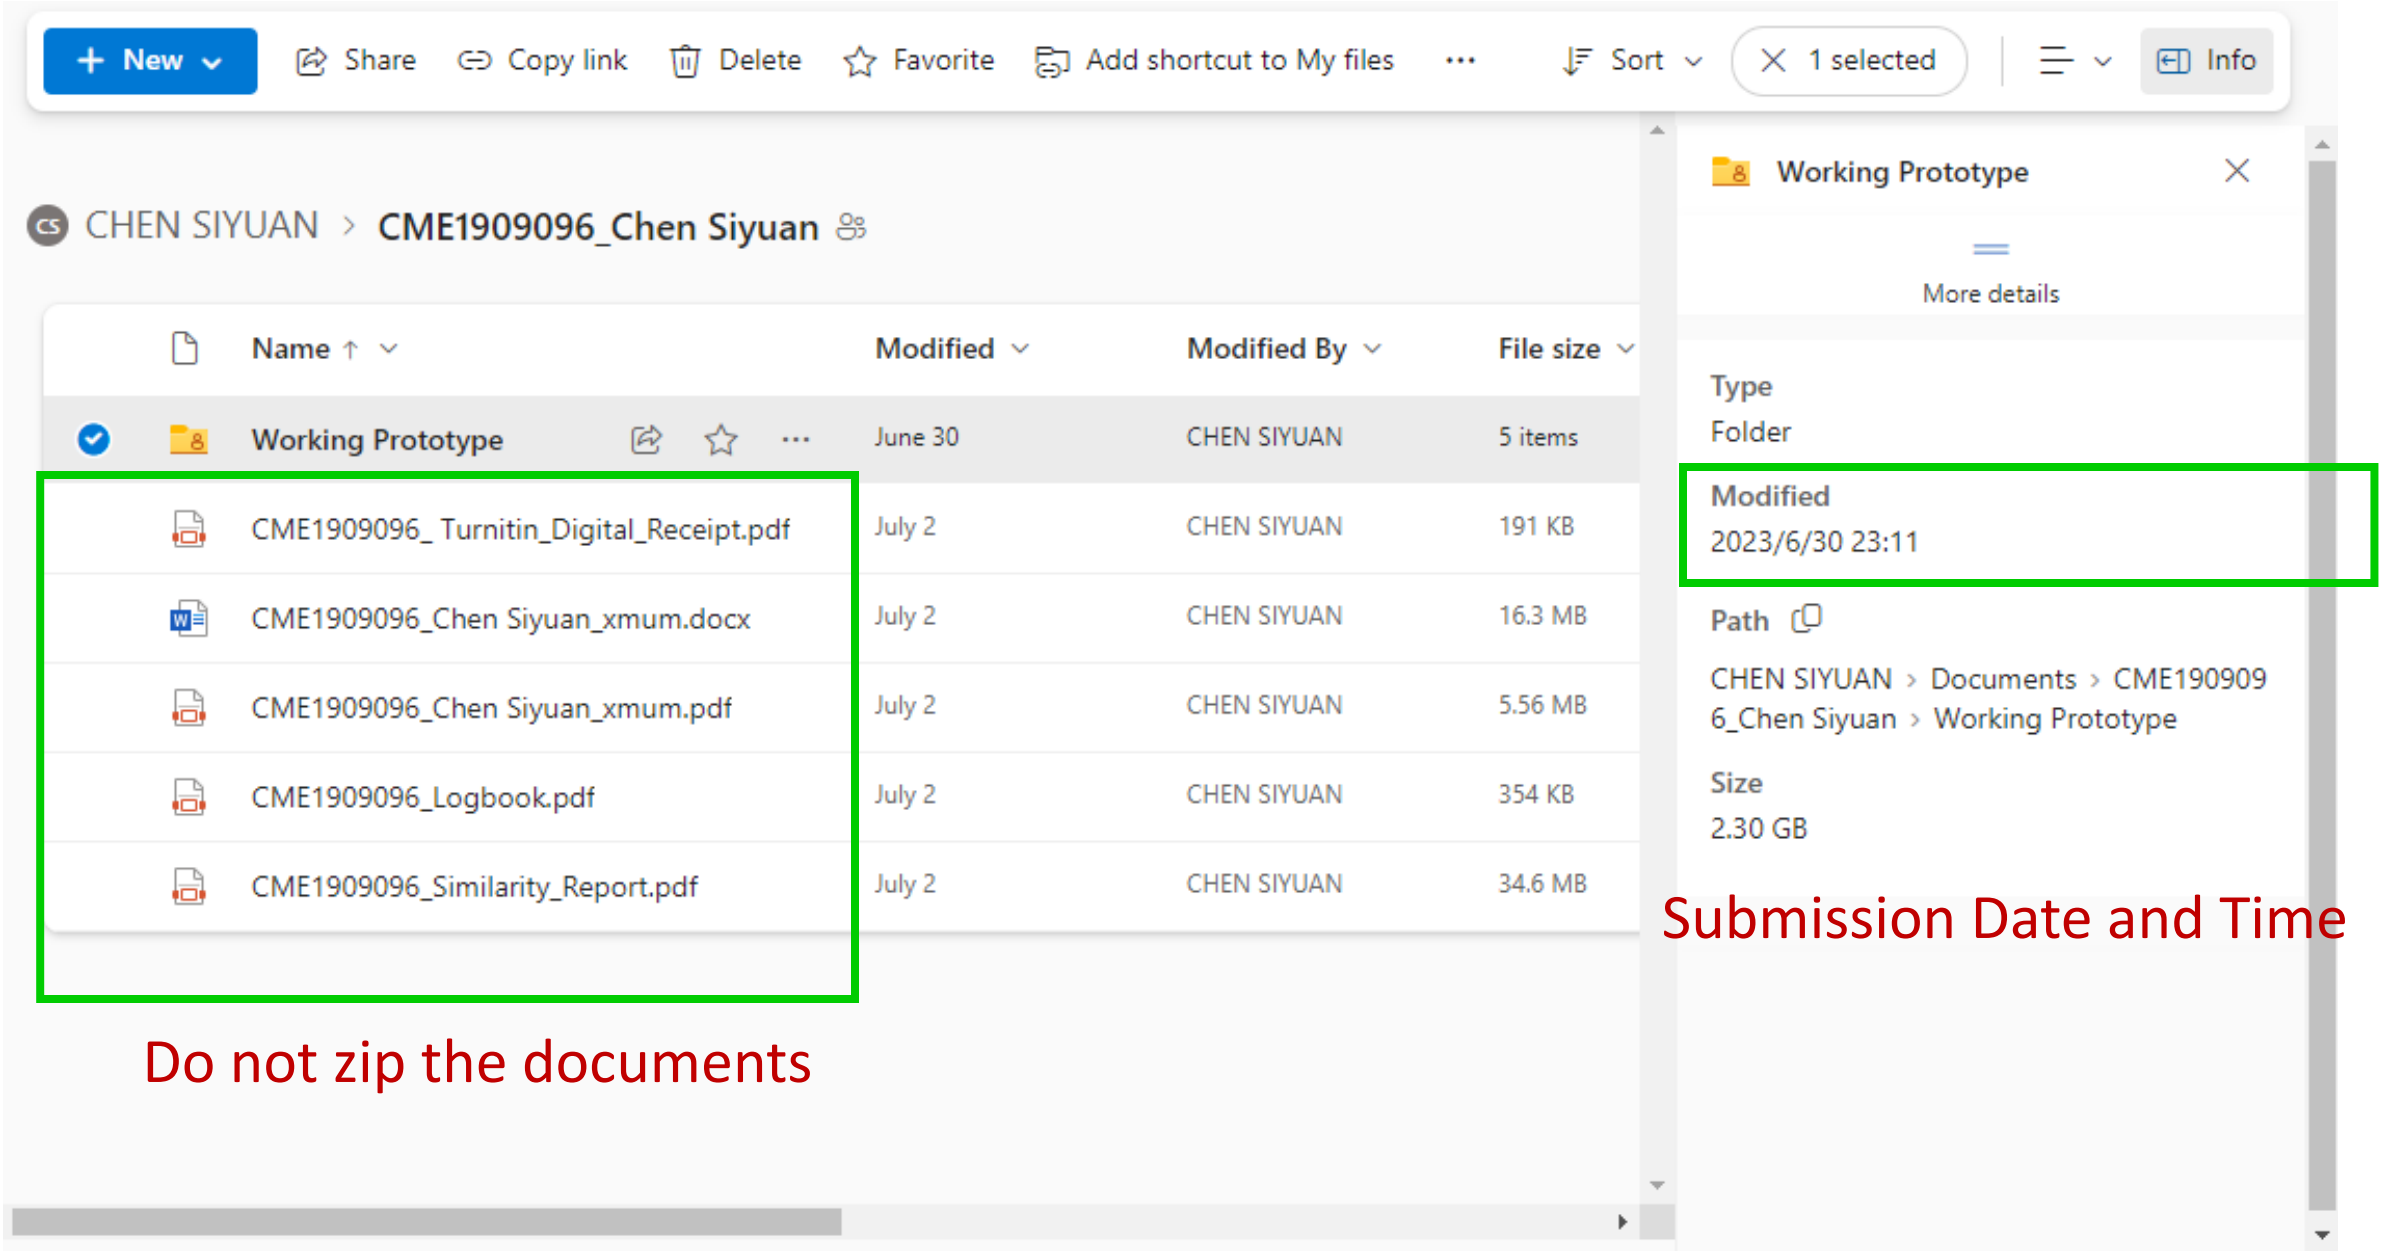

1. **FYP report (Word & PDF)**
2. **Logbook (with supervisor's signature)**
3. **Turnitin similarity report**
4. **Turnitin digital receipt**

× **Wrong** Naming Conventions

Submission Guidelines

- **Supervisor & FYP Coordinator** will create class, manage class and students paper submission in ASRP.

- **Students** login to ASRP and check for the Class ID and Enrollment Key.
- Students to create new Turnitin account via https://www.turnitin.com/ using the campus email address only. Also, enter the First Name and Last Name appear as in your identity card (IC) or passport, for ease of password reset, if requires.
- Students are required to submit their assignments for plagiarism checking in Turnitin, then follow by the submissions file and similiarity report in ASRP.

*Note: Abstract and Main chapters only, exclude the Reference

https://linc.xmu.edu.my/turnitin/

Submission Guidelines

- A **penalty of 5%** will be applied upon the **expiry of the deadline (Late Submission)**.
  - A subsequent penalty of 5% per day will be applied for each day (24 hours) after the due date.

- A **penalty of 2%** will be applied for **incomplete submissions.**
  - This includes missing some of the submission documents, missing signatures in the logbook.
  - If the submission documents **do not include the FYP project report**, then it will be **considered as a Late Submission** and will be penalised according to the above clause.

Late Submission Penalty

- Eg : Moodle Submission Deadline is **2pm on 30 December 2026**.

Submission (Moodle Submission Time)	Penalty
Before 2pm on 30 December 2026	No Penalty
After 2pm on 30 December 2026	5%
After 2pm on 31 December 2026	5% + 5%
After 2pm on 1 January 2027	5% + 5% + 5%
After 2pm on 2 January 2027	5% + 5% + 5% + 5%

Late vs Incomplete Submission Penalty

Example

- Moodle Submission Deadline: **2pm on 30 December 2026** .
- Submit at **3pm on 30 December 2026** : **Late Submission**
- Missing Supervisor's Signature on Logbook: **Incomplete Submission**

FYP report marks from examination panel (/100)	80
Late Submission Penalty (5% + 5%)	10%
Incomplete Submission Penalty	2%
Final Marks for REPORT	**70.4**

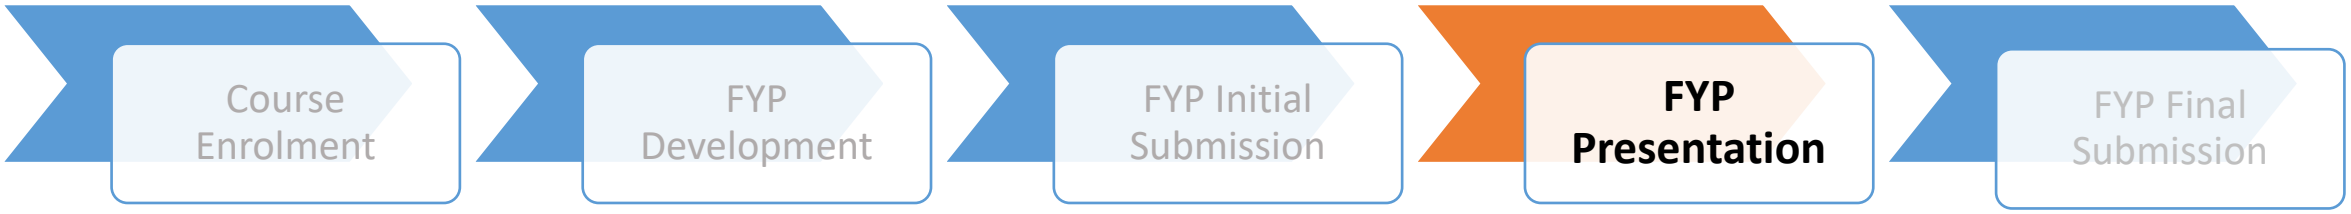

Non-submission Cases

- **Non-submission cases** relate to students who are enrolled in FYP-2 (CST404/DMT402/SWE407/CYS401/DSC401) during the semester but **did not submit or failed FYP-2 by the end of the semester**.

  - Marking **will be stricter** for all students.
  - The supervisor can decide to approve or reject a student's continuation in the same topic area based on their progress.
  - Students will receive a grade down penalty upon retaking.
    - Exceptions will be given to students who
      - switch their FYP directions or topics.
      - who have health issues with supporting evidence

      *(*considered on a case-by-case basis.)*

FYP-2 (Week 15)

- Tentative date for 202609 FYP2 Presentation is on **4 & 5 January 2027 (Monday & Tuesday) of Week 15**.

- Student shall present their project as scheduled. The **presentation is compulsory** to pass this course. Students are **not allowed to reschedule the presentation** without any valid reason.

- After FYP-2 presentation, students are required to **upload the presentation slides** to Moodle Course Page.

Presentation Guidelines

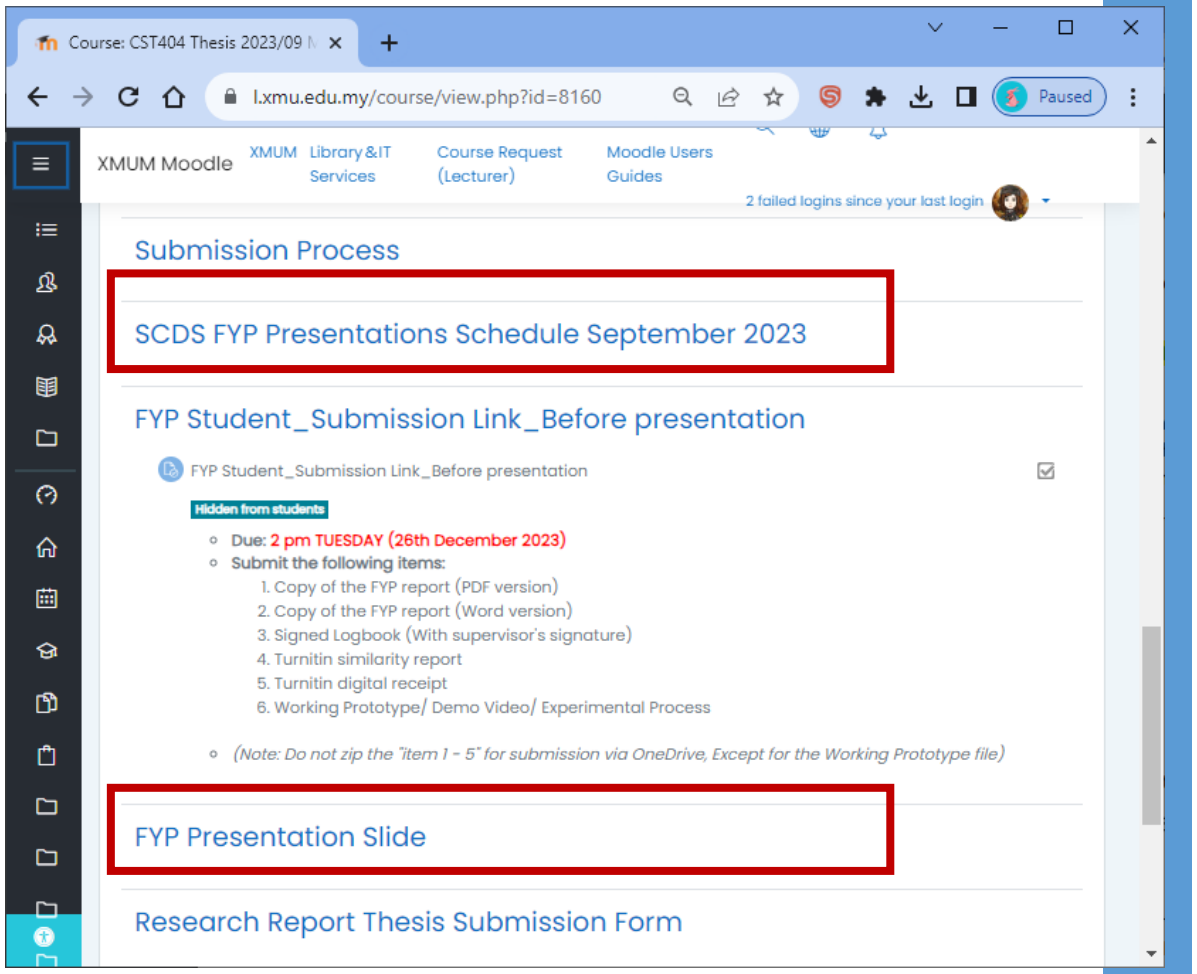

- Generally, the **contents of the presentation** include but not limited to:
  - Outline of the presentation
  - Background information
  - Literature review
  - Problem statement
  - Aim and objectives
  - Design, implementation, and findings from the project
  - Conclusion and future work
  - A demonstration of the implementation/process of the experiments/prototype

- For further details, students can discuss with their supervisors to plan and prepare for the presentation. Students are also advised to **check the marking rubric** to ensure that all the **presentation criteria are fulfilled**.

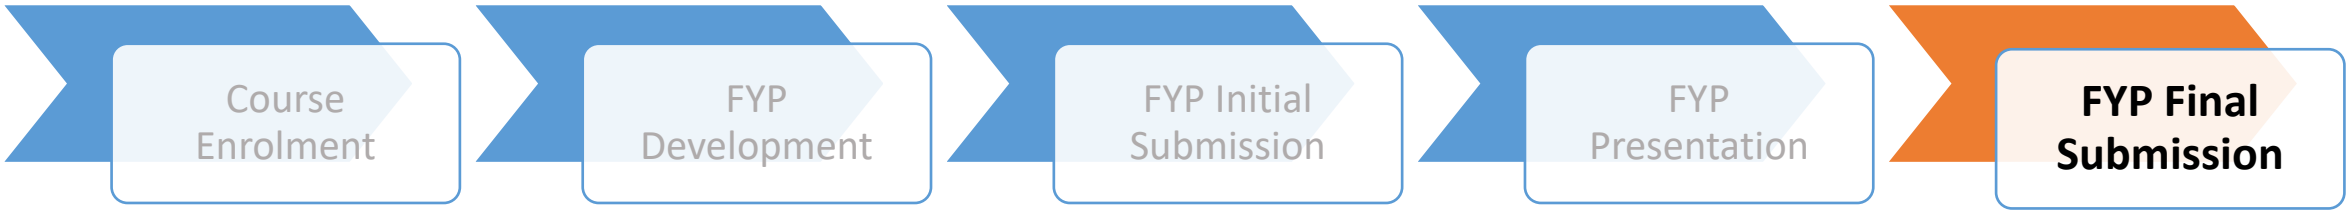

Presentation Guidelines

- A **fixed time slot (40 minutes)** will be given for each student to present
  - **25 minutes for presentation**
    - It is advised to spend about 15 minutes to deliver the contents of the presentation and 10 minutes for the demonstration.
  - **15 minutes Q & A**

- The presentation sessions **will be recorded.**

FYP-2 (Week 16)

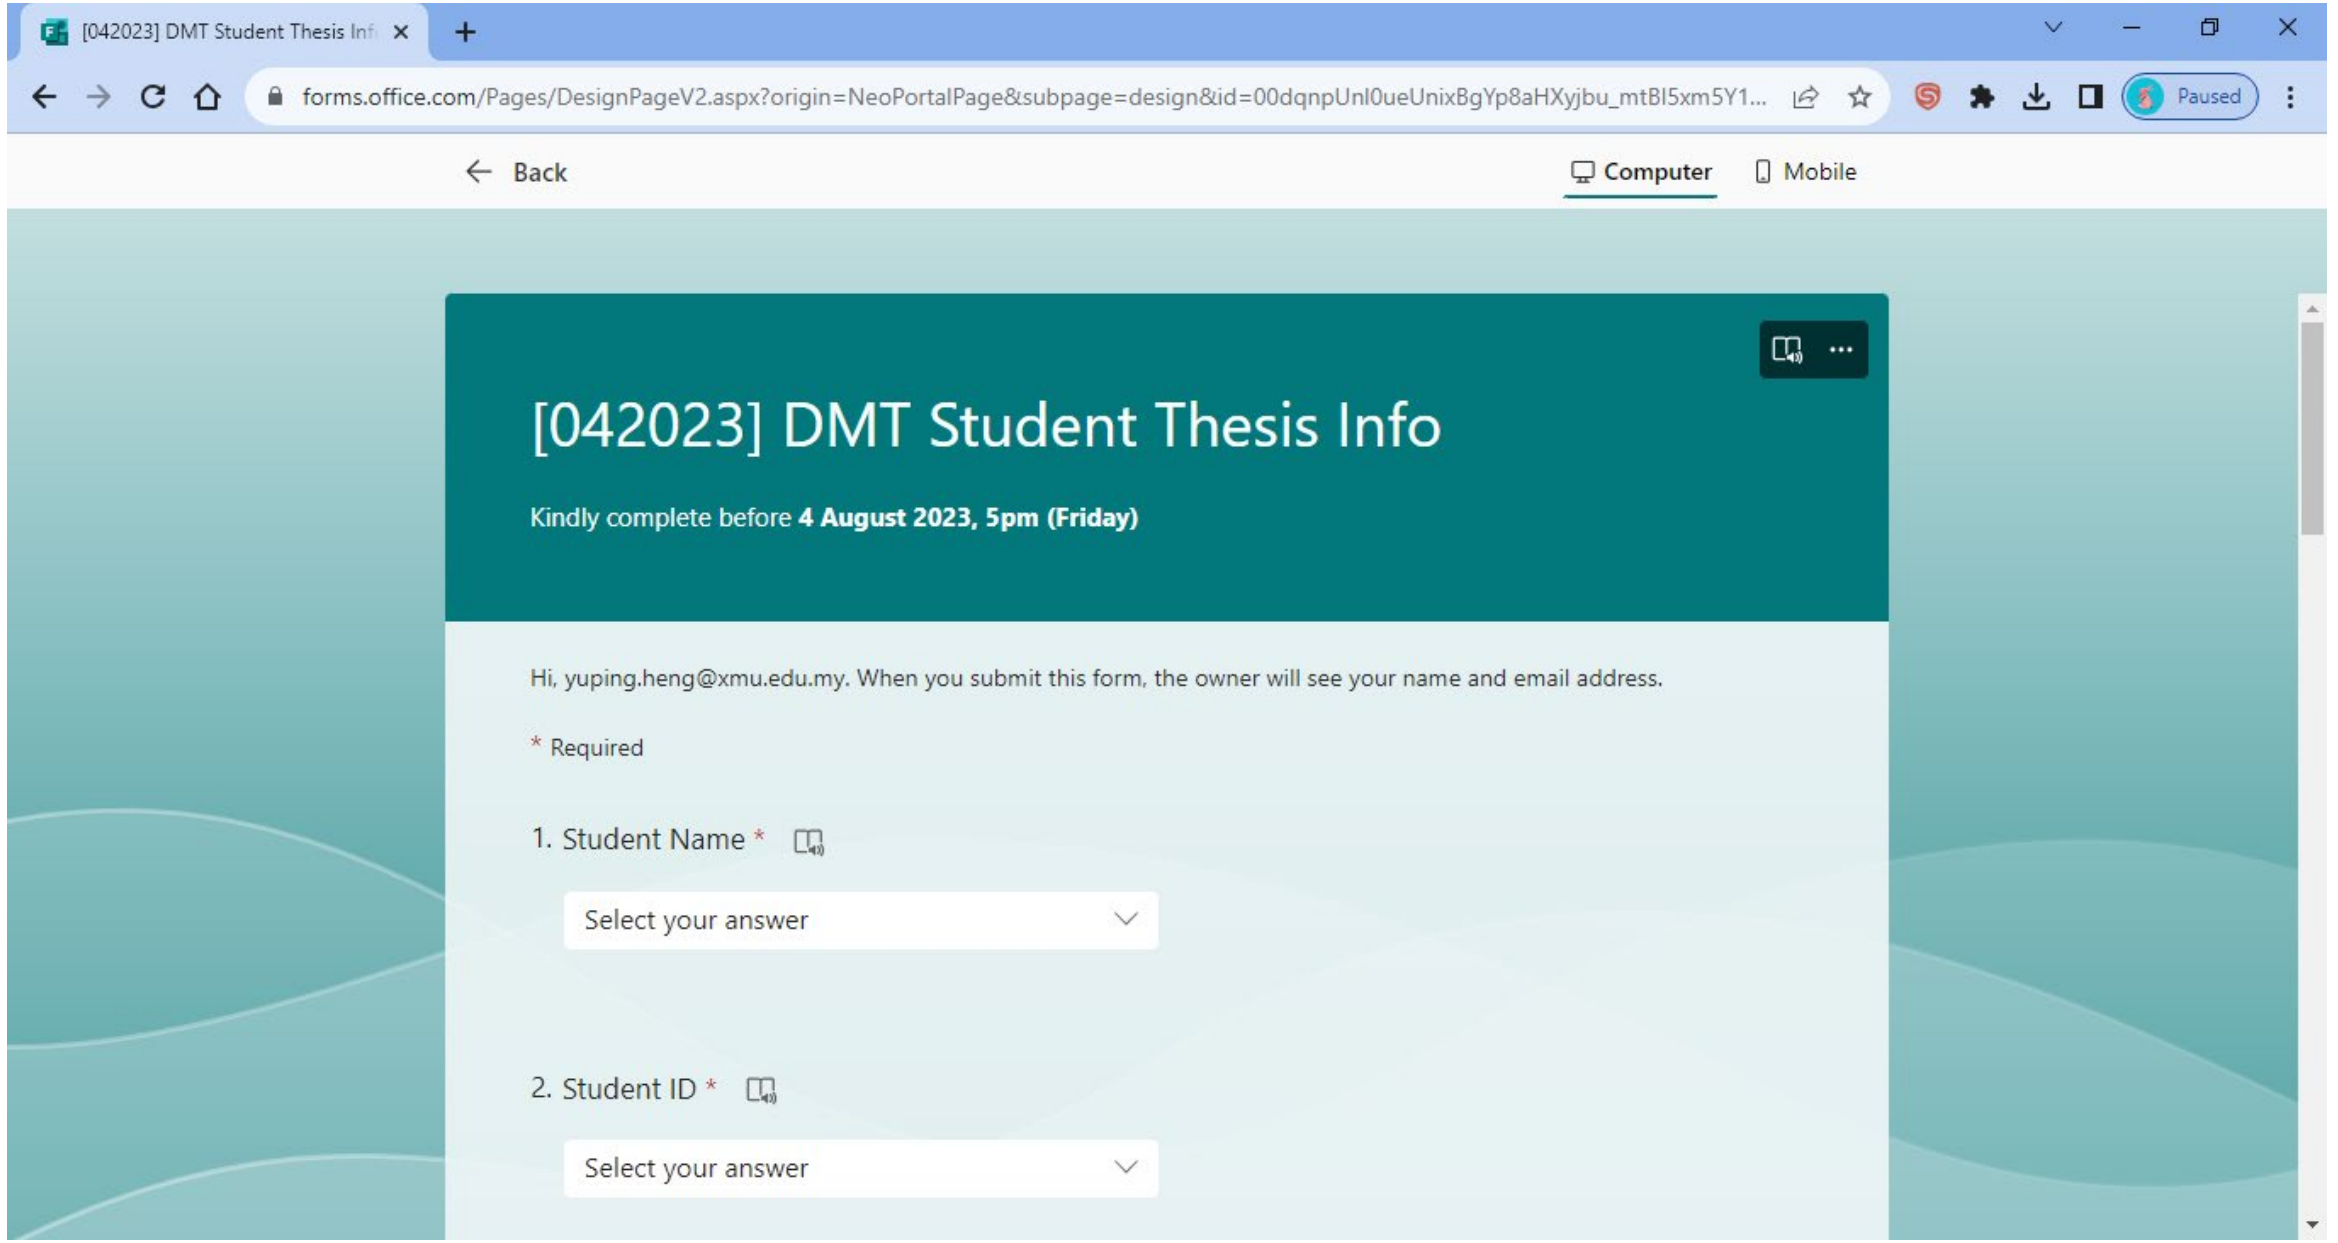

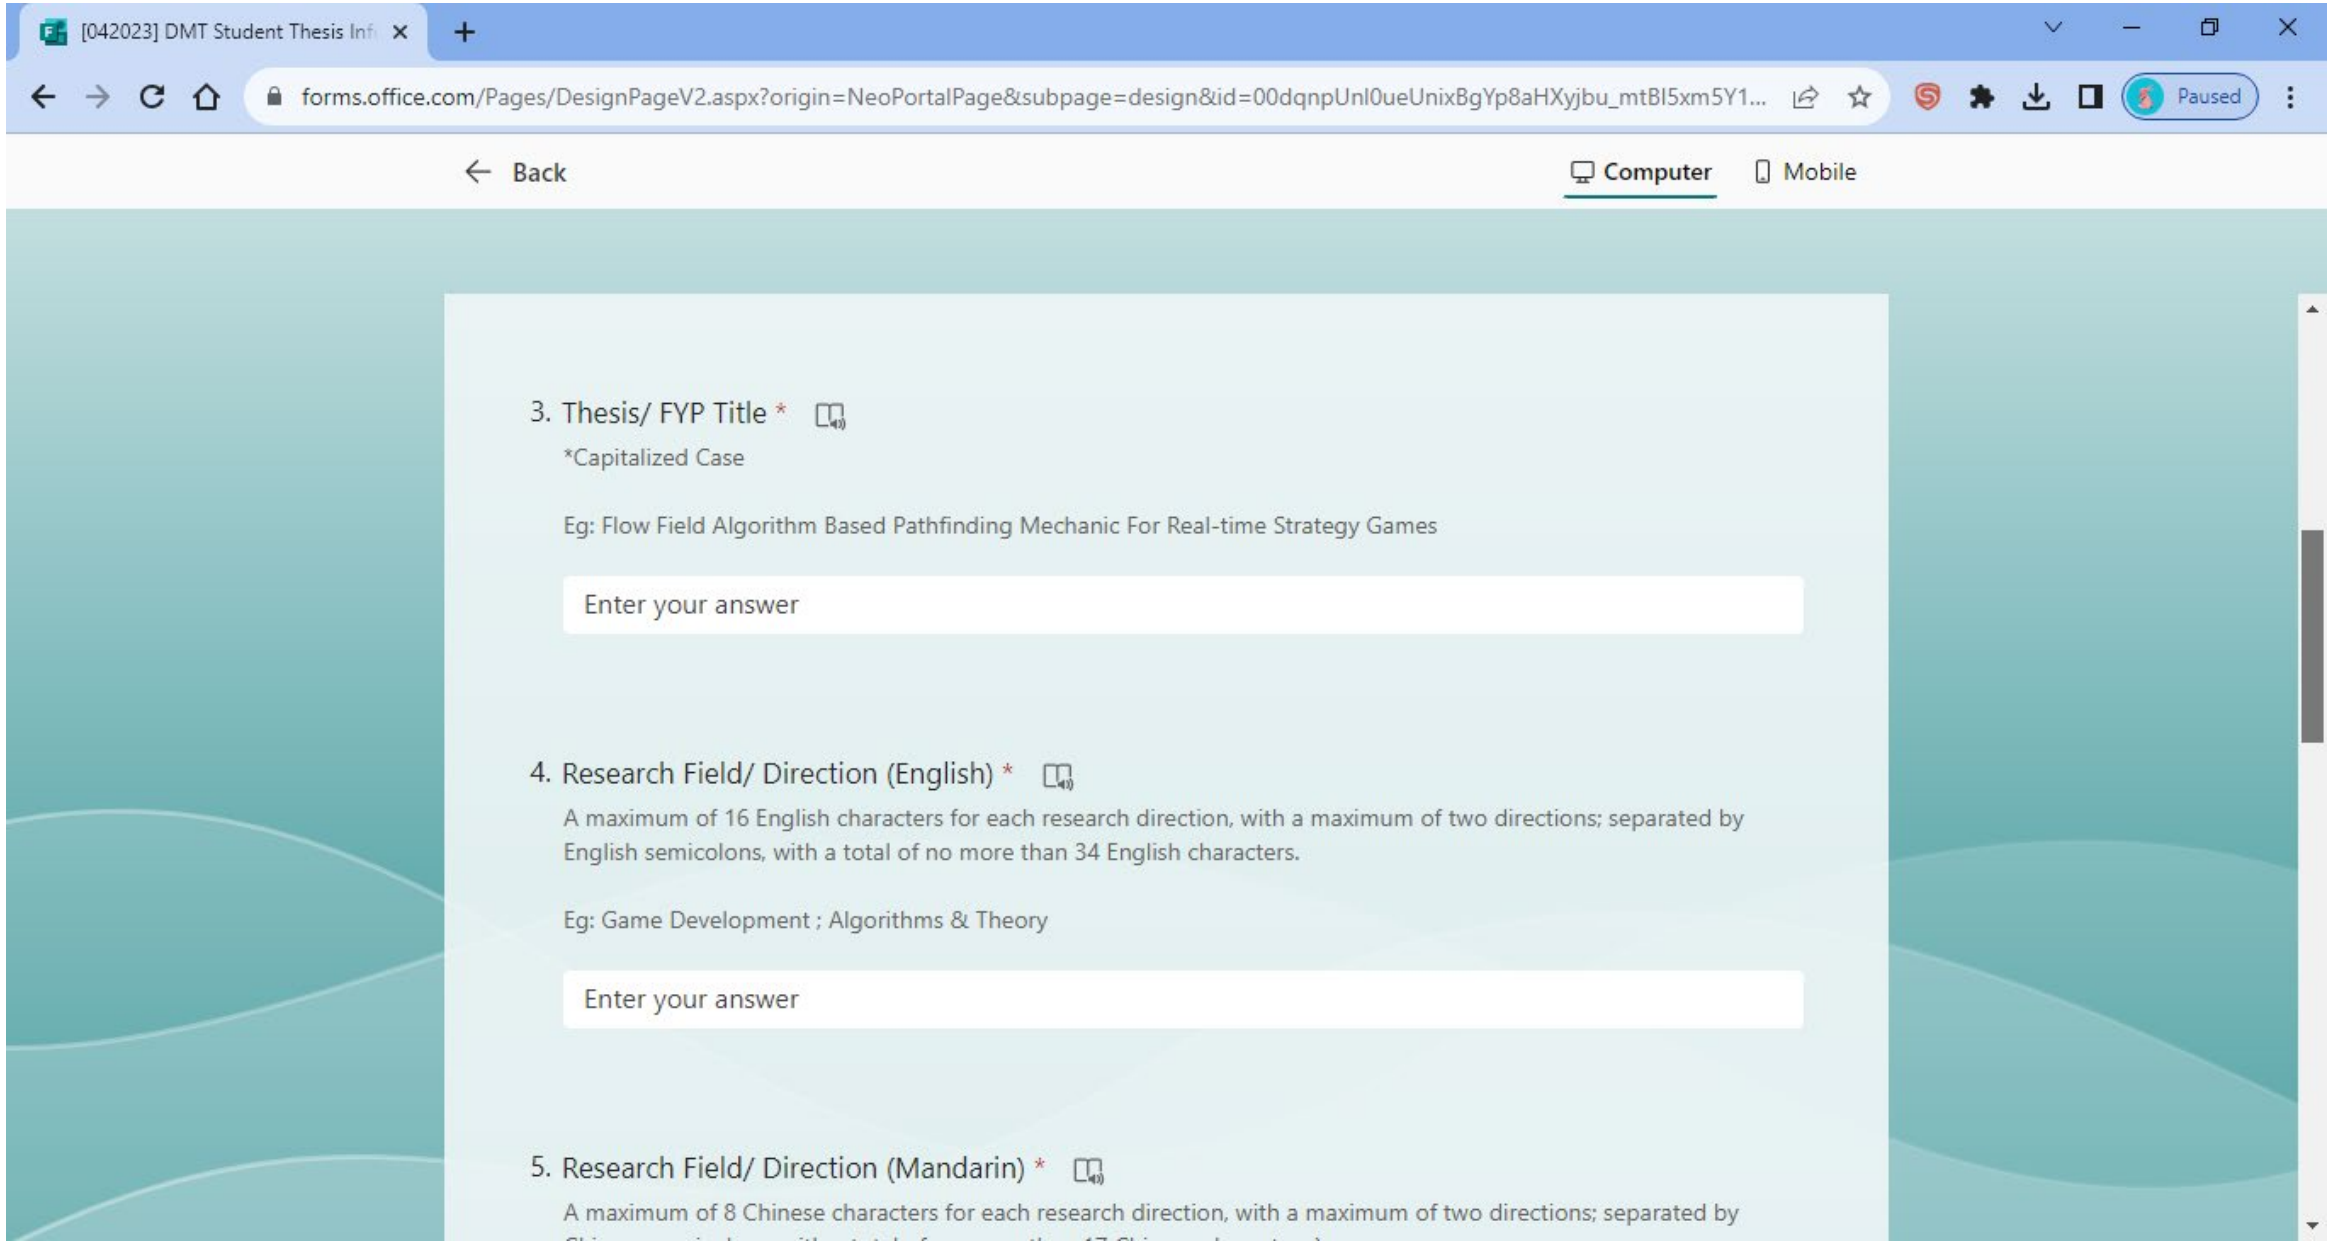

- **FYP Final Submission Deadlines:**
  - **Moodle Submission:** The student must submit the final version with the Thesis Submission Form on Moodle by **14 January 2027 (Week 16)**, with **Supervisor's Signature**.

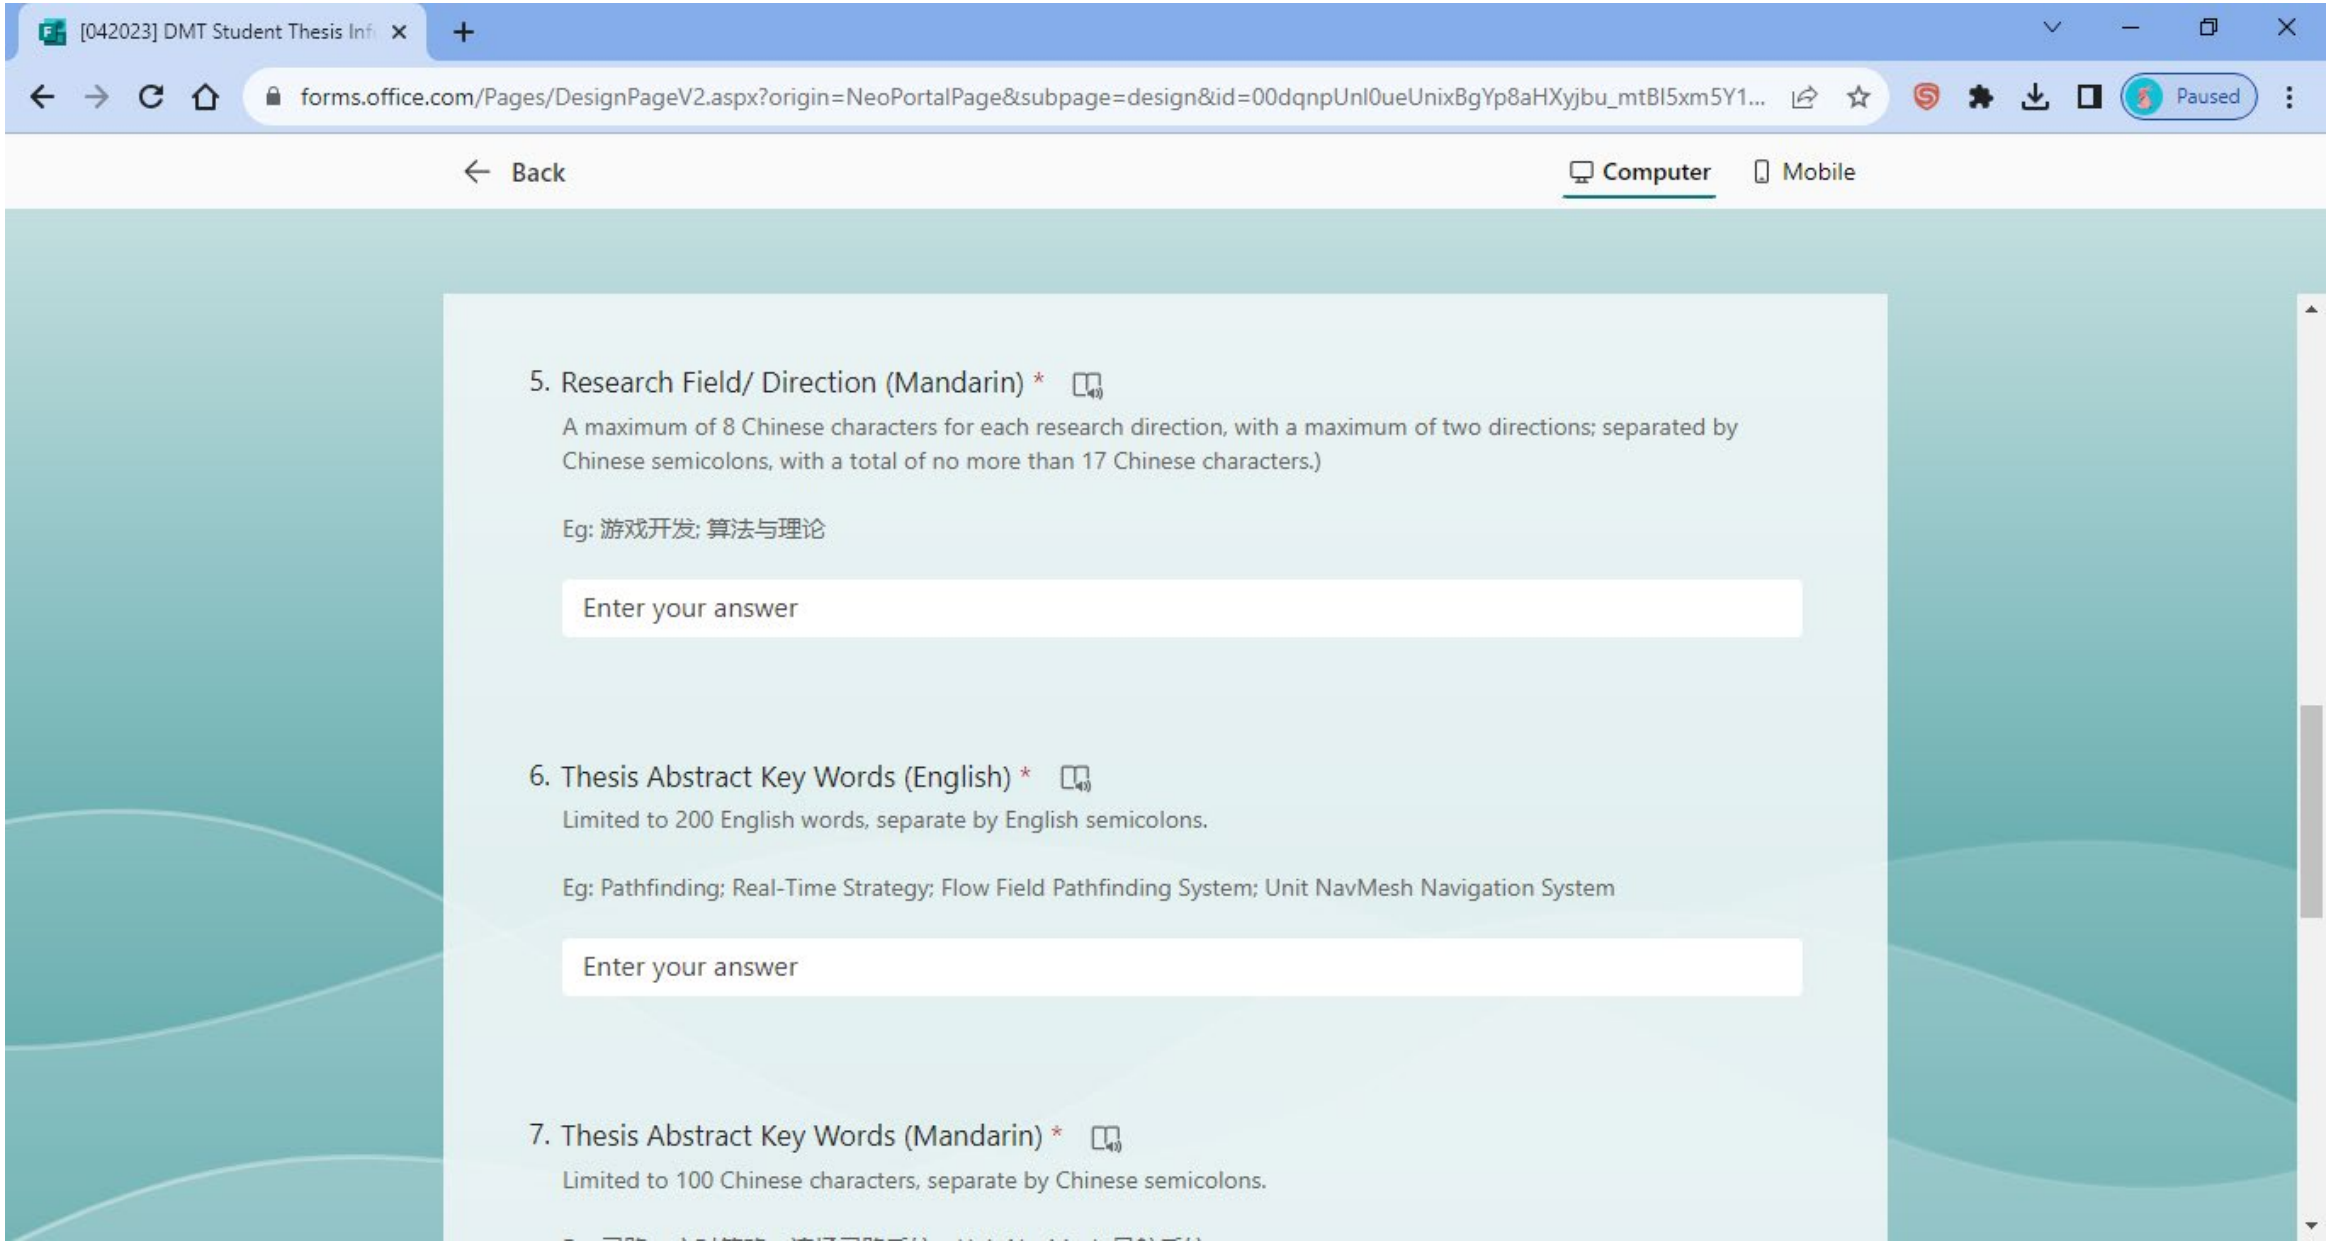

FYP Collection for Main Campus Audit

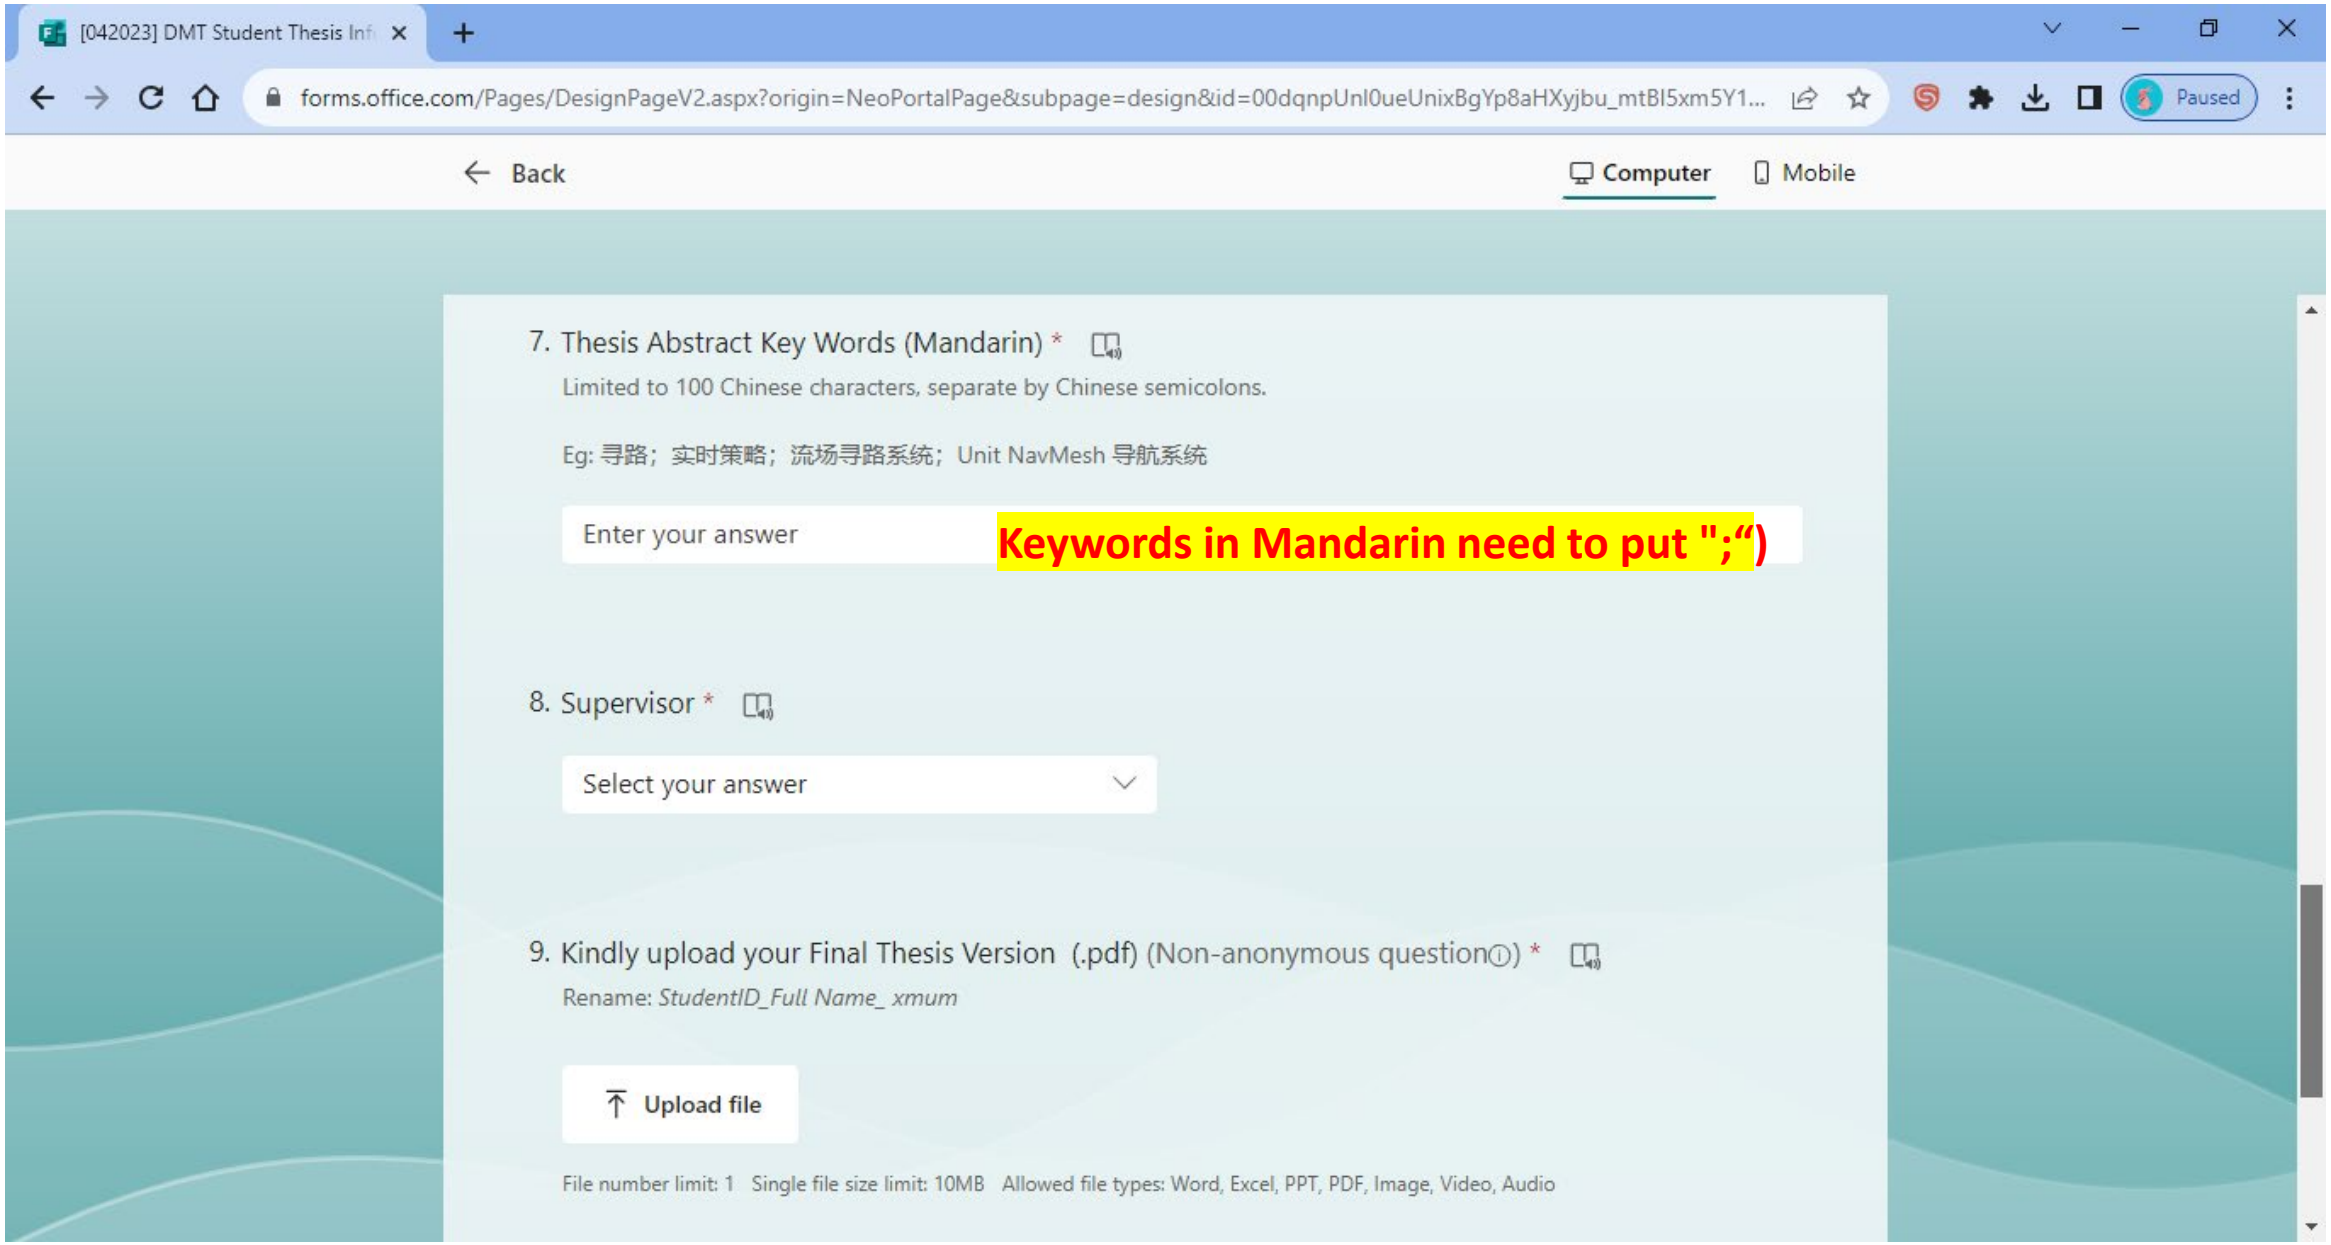

- All undergraduate thesis undergo **main campus audit** at the end of semester.
- Submission before **14 January 2027, Week 16**

- Essential information for the **“Student Thesis Info”** includes:
  - Thesis title
  - Research field/direction (English and Mandarin)
  - Keywords for the thesis abstract (English and Mandarin) **(Note: for the keywords in Mandarin use semicolon ";“)**
  - Final Thesis Version (.pdf): **Initial Submission Thesis (Before presentation)**
  - Supervisor’s name
  - Others

Others

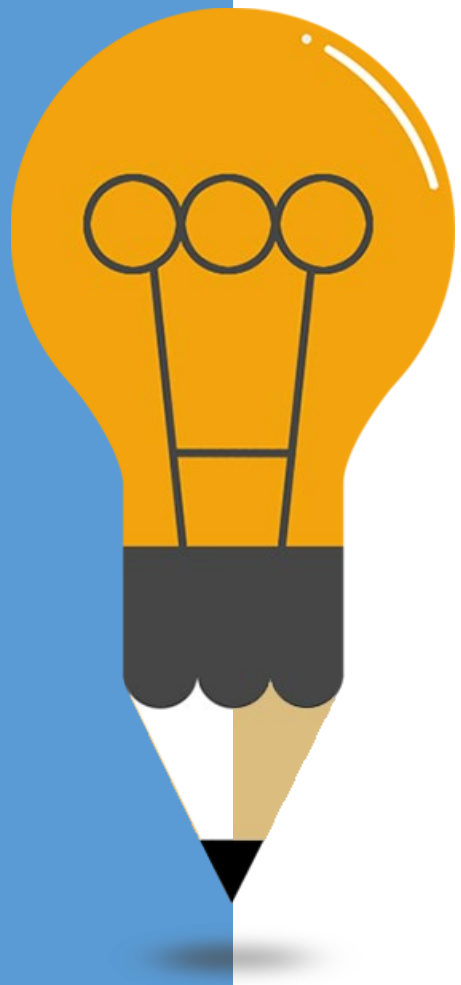

SCDS FYP Best Thesis Award

- Objectives
  1. To appreciate students' and supervisors' hard work for the FYP.
  2. To create healthy competitiveness among students.

- **3 Best Thesis Award winners** selected from each program (CST, DMT, SWE, CYS, DSC). (**For special case where certain programme had students < 3, there will be a Special Discussion regarding the Award**)

- Nominees are chosen by their **respective supervisors**, submitted to the **FYP Award Team** for the selection process.

- Winners' Benefits
  - Winners receive a certificate from the school.
  - Have the opportunity to showcase their FYP during the exhibition.

FYP Thesis Abstract Page

ABSTRACT

The ability of free and immobilized cells of Aspergillus awamori to act as an effective cadmium biosorbent was investigated using..... From the study, ... However, ...

KEYWORD: Aspergillus

The abstract should be brief, not more than **500 words.**
Include a **minimum of one keyword** and a **maximum of five keywords.**
Keywords should indicate the novelty and relevant major points of the project undertaken.

KEYWORD/ KEYWORDS

Abstract content limited to 200 words. Keywords should indicate the novelty and relevant major points of the project undertaken. **5 keywords need to be** listed below the abstract, **and separated by English semicolons (;).**

FYP Thesis List of Tables/ Figures

LIST OF TABLES

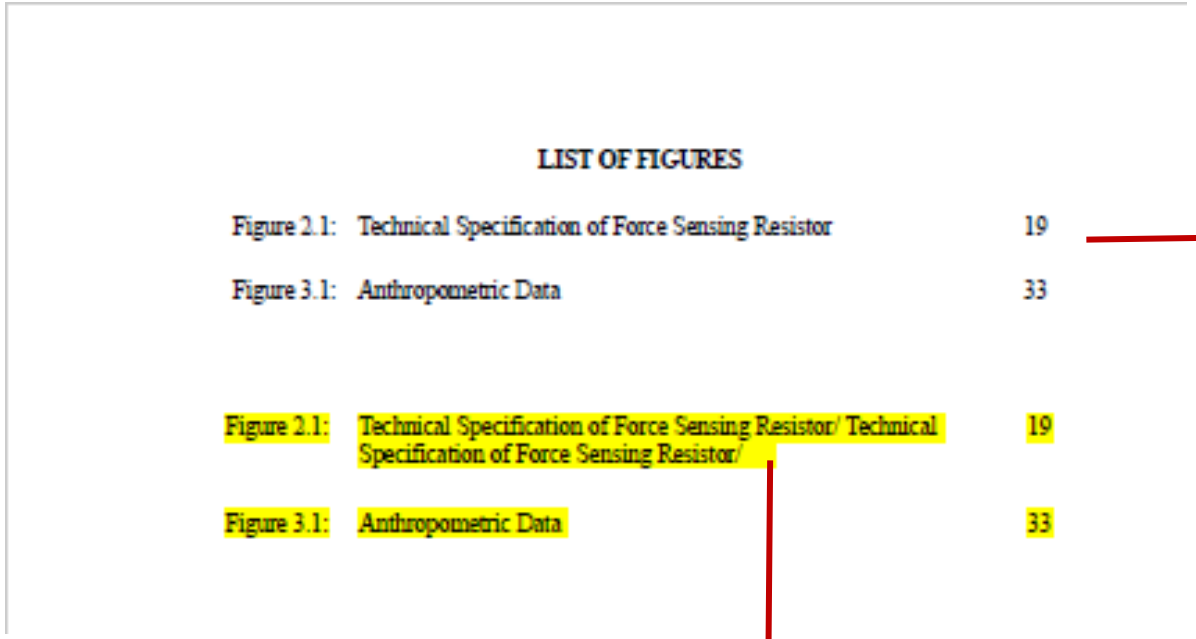

Table 2.1: Technical Specification of Force Sensing Resistor 10

Table 3.1: Anthropometric Data 23

The tables should be arranged according to the chapters.

The numbering system is according to the chapter, for e.g.: tables in Chapter 1 are numbered sequentially: **Table 1.1, Table 1.2 and so on.**

FYP Thesis List of TablesFigures

LIST OF FIGURES

Figure 2.1: Technical Specification of Force Sensing Resistor 19

Figure 3.1: Anthropometric Data 33

Figure 2.1: Technical Specification of Force Sensing Resistor/ Technical Specification of Force Sensing Resistor/ 19

Figure 3.1: Anthropometric Data 33

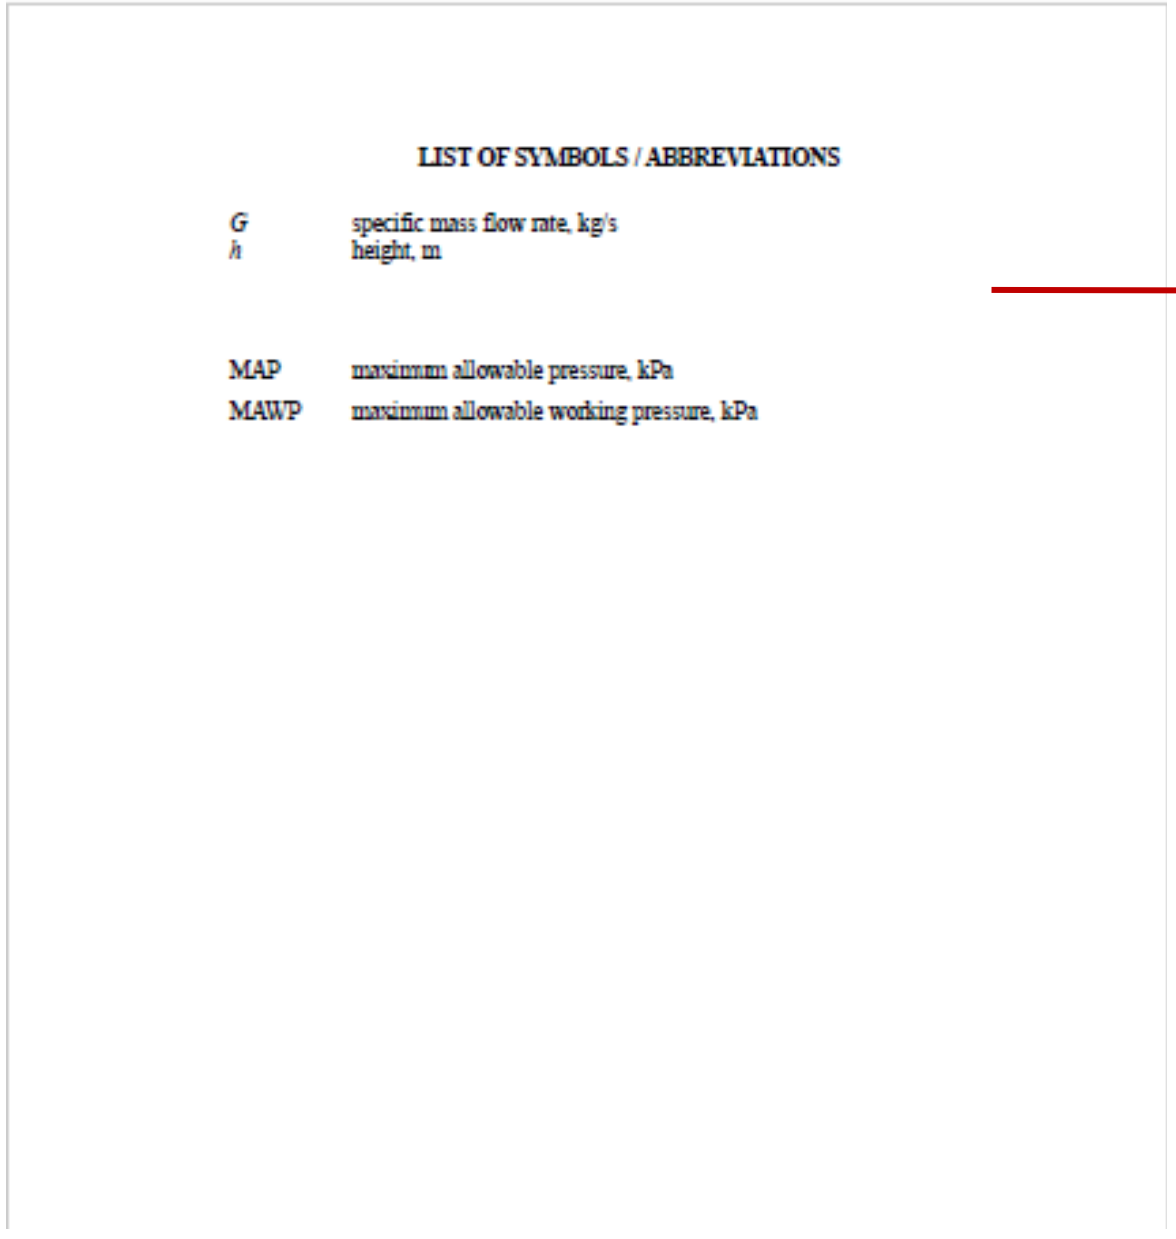

Figure/ Table title within the same sentences may be **single-spaced.**

Figures include diagrams, photographs, drawings, graphs, charts and maps.

The figures should be arranged according to the chapters.

For example, Figures in Chapter 1 are numbered sequentially: **Figure 1.1, Figure 1.2 and so on.**

FYP Thesis List of Symbols (if applicable)

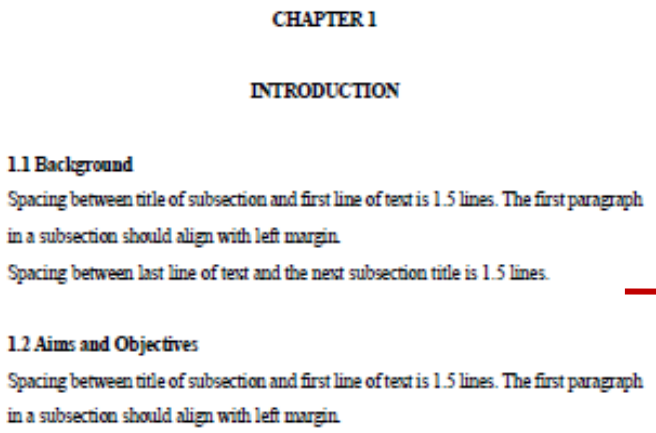

LIST OF SYMBOLS / ABBREVIATIONS

G	specific mass flow rate, kg/s
h	height, m
MAP	maximum allowable pressure, kPa
MAWP	maximum allowable working pressure, kPa

All symbols, abbreviations, notations and terminologies found in the Project Report should be listed on this page according to **alphabetical order**, together with their units.

FYP Thesis Chapter 1

CHAPTER 1

INTRODUCTION

1.1 Background

Spacing between title of subsection and first line of text is 1.5 lines. The first paragraph in a subsection should align with left margin.

Spacing between last line of text and the next subsection title is 1.5 lines.

1.2 Aims and Objectives

Spacing between title of subsection and first line of text is 1.5 lines. The first paragraph in a subsection should align with left margin.

Spacing between title of subsection and first line of text is **1.5 lines.**

The first paragraph in a subsection should align with **left margin, and justify**.

Spacing between last line of text and the next subsection title is **1.5 lines**.

The **First Page of a Chapter** (Chapter 1/2/3/..) should be counted, but the page number should not be shown

FYP Thesis Chapter 1

1.3 Thesis Content

There is no restriction on the total number of chapters in a project report/ thesis. The number of chapters differs according to the field of study conducted by the candidate whether it is science-based or social-science-based. However, the content of the chapters may differ according to the candidate's research or conventions of individual School/ Faculty.

The body of the Project Report/ Thesis must be written in paragraphs. There must be continuity or logical flow among paragraphs. Long paragraphs are advised to be avoided.

Generally, a basic structure for the project report/ thesis is as below:

- Introduction
- Literature Review
- Research Methodology
- Results
- Discussion
- Conclusion and Recommendation
- References

The level of English writing must be appropriate to the level of the Bachelor's degree. Attention should be paid to correct spelling, grammar, punctuation, sentence structure and clarity of style.

Normally, no first person references (e.g. I, we, us) shall appear in the report. If self-reference is required, reference may be made to "the author" or "this study". Exceptions are acceptable in the conclusion section, where personal comments may be appropriate.
